

CSBG IS FY 16-17

Total number of individuals: 16,492

This is a decrease of 553 from FY 15-16.

Gender

Male	3868	42%
Female	5295	58%
Total	9163	

26% less than HS diploma
74% GED/HS diploma or higher

Household Types

- 49% are **single person** HH
- 19% single female parent HH
- 14% two parent HH
- 11% two adults no kids HH
- 5% is "other" such as multigenerational/ fostercare
- 2% single male parent HH

99% of HH's indicated some source of income in FY 16-17

84% of HH's indicated some source of income in FY 15-16

Sources of Income FY16-17

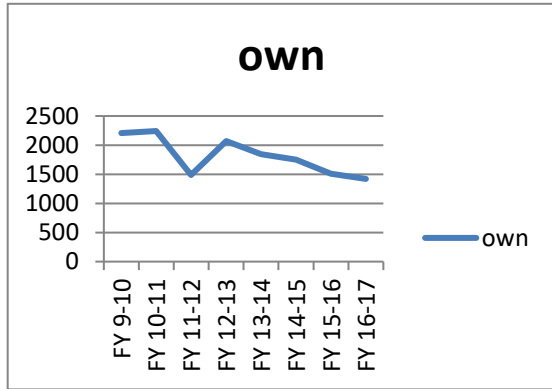

Households reporting one or more sources of income is very high at 99%; but the poverty levels of individuals we serve is still very low, 68% of those have incomes below the Federal Poverty Guideline of 100%. This would be \$1005 per month for a HH of one, or \$1353 for a HH of two.

homeless

other

The type of housing is telling for our clients as well. Housing studies have shown that individuals who rent are paying **over** 30% of their income toward rent and utilities. If this is a HH of two at or below the 100% FPG renting a two bedroom in Buffalo County the HUD Fair Market rental approved price is **\$723**. So the 2 person HH earning the \$1353 a month is paying **53%** of thier income on housing. This may or maynot include utilities.

Summary:

The typical Mid Client is a single female age between 24-44 with a high school diploma or higher with at least one source of income, but falls below the 100% Federal Poverty Guideline and rents.
